

Protection & Peace of Mind

Wisconsin's melting snow and spring rains bring flooding, along with humid summers, leads to an elevated mosquito population.

Mosquitoes not only ruin outdoor adventures, they carry dangerous vector-borne diseases.

Let us give you protection & peace of mind.

Entire Season Protection

\$380* (price is for one acre or less)

Just

\$380*

For the entire season!

*Our Summer Mosquito Control Program has a "limited" warranty. Our treatment is proven to provide excellent mosquito control, however no treatment can guarantee 100% control. If you still have a significant problem after treatment and you have eliminated any identified breeding spots, we will carry out a re-treatment. The "limited" warranty means that not following recommendations or a call one week before the end of the warranty period will not result in a re-treatment.

*Treatments will be completed in May, late June/early July, August and September.
